

### REMARKS

This is in response to the Office Action mailed June 17, 2008. In the Office Action, Applicant's Claims 20 and 21 were rejected under 35 U.S.C. §101 as being directed to non-statutory subject matter because they recited a "word builder program" which according to the patent office guidelines does not fall within one of the statutory classes of invention. Although Applicant does not agree with the rejection, Applicant is willing to make an amendment to advance prosecution.

Examiner Armstrong and the undersigned discussed this rejection in a telephone interview on July 16, 2008. The undersigned proposed an amendment of independent Claim 20 to include the phrase "stored on a computer-readable medium" after the phrase "word builder program." Examiner Armstrong indicated that such an amendment would address this rejection. Support for this amendment can be found in Applicant's specification at page 7, lines 13-15, as well as elsewhere in Applicant's specification. No new matter has been added.

With this amendment, Applicant submits that the present application has been placed in condition for allowance. If any issues remain, the Examiner is invited to call the undersigned at the telephone number below.

Respectfully submitted,

Frank J. Kozak  
Reg. No. 32,908
